2011 State of CECOM Address

MG Randolph Strong
8 December 2011
State of CECOM Outline

- Team C4ISR

- CECOM Leadership Team
  - Majority are new faces

- Mission, Vision and Priorities
  - Moving forward, not back to the basics

- Accomplishments of Past Year
  - One heck of a year!!!

- Our Business Environment is Rapidly Changing
  - Do better with less
  - Be very efficient and effective with resources

- We Must Reengage
  - BRAC is old news and behind us
  - Network is the Army’s #1 modernization effort

- Challenges and the Future
  - There is good news out there
TEAM C4ISR

Mr. Douglas K. Wiltsie
PEO EIS

BG Harold Greene
PEO IEW&S

BG Lee Price
PEO C3T

MG Randolph Strong
CG, CECOM

Mr. Bryon Young
Dir, APG-Contracting

Ms. Jill Smith
Dir, CERDEC

The C4ISR Portfolio

U.S. ARMY
CECOM
One vision. One Mission. The Warfighter
Mission
To Develop, Acquire, Provide and Sustain World-Class C4ISR Systems and Mission Command Capabilities for the Joint Warfighter

Vision
To Be the Department of Defense’s Premier Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance Capabilities Provider
CECOM Leadership Team

Mr. Gary Martin
Executive Deputy to the CG

MG Randy Strong
Commanding General

CSM Kennis Dent
Command Sergeant Major

COL William Montgomery
Chief of Staff

Mr. Lane Collie
Director Logistics Readiness Center

Mr. Ned Keeler
Director Software Engineering Center

Ms. Maria Esperraguera
Chief Counsel

COL Kris Kramarich
Commander Information Systems Engineering Command

COL Charles Gibson
Commander Tobyhanna Army Depot

COL John Matthews
Director Central Technical Support Facility
Focused Priorities

- Supporting the Warfighter
- The Network
- The CECOM Workforce
- Operating More Efficiently

Current and Future Focus
Accomplishments

Completed BRAC

- Six Year Effort
- Moved 3,162 Govt Employees
- Hired 1,479 New Employees
- 69.1% of Employees Moved
- 813 Trucks
- 117 Laboratories
- At least one BBQ Grill
- No Dogs or Cats (probably a few stink bugs)
- 145 Vehicles; 57 Shelters & Trailers
- Spent Approximately $1.5 Billion
Accomplishments

• Warfighter Support
  - Reset 33 BCTs and 62,224 pieces of equipment
  - Max number of personal deployed – 3,170
  - Reset over 78K NVDs, 70K SINCGARs
  - Closed all CECOM facilities in Iraq

• Provided our Allies with $2.8B in FMS Sales, including $460M FMS cases in SWA

• Logistics Support
  - Recovered 73,919 DLRs totaling $490M
  - Sustained 45K NSNs (Parts) costing $808M

• ISEC BRAC Construction Projects
  - 3 Army Four Headquarters
  - Defense Information Systems Command Headquarters
  - Southern Command Headquarters

• Tobyhanna
  - Achieved record $1B in business at Tobyhanna
Accomplishments

• **Tobyhanna – Shingo Award**
  - Silver Medal for LEAN Six Sigma initiatives applied to Mini-MUTES

• **Legal Office**
  - 2011 Excellence and Innovation Award

• **Safety**
  - SA and CSA Exceptional Organizational Award – Division Level
  - SA and CSA Industrial Operations Safety Award - Depot

• **ISEC**
  - Recognition by VCSA for Excellence in BRAC

• **Staff**
  - Certified second Master Black Belt within the command
  - 2 of only 66 Army wide
The Environment We Work In Is Changing

- Less TDA Manpower Authorizations
- Less Funding
- CPFF, not T&M Contracting
- Less Soldiers Deployed
- Less Equipment to RESET
- Less “fast” and instead “Less Costly”
- Must be More Efficient and Effective
- Fort Bliss, not Fort Hood Center of World
- Increased Emphasis on Small Businesses

Creating efficiencies in all that we do
We Must Reengage

- Forums in HQDA shaping our destiny without our involvement
  - Task Force Test
  - Mission Command Capability Portfolio Reviews (VCSA)
  - Network Portfolio Reviews (VCSA)
  - Network Integration Experiment (NIE)
  - Network Integration Task Force (CIO/G6)
  - Weapons Systems Reviews
  - New ASA(ALT) SoSI Directorate

- Ditto for AMC HQs
  - Established CECOM LNO at AMC Hqs

- Empowering the CECOM G3
Transformation of CTSF

Operational Concept

1. Move CTSF Labs and HQDA EXORD Missions to the C4ISR Center of Excellence (CoE) at APG
2. Establish presence at FBTX/WSMR to support Field Integration and Configuration Management
3. Support ASA(ALT) enterprise-level SoS Integration prior to AIC and Agile process at APG
4. End CTSF organization presence at Fort Hood, TX

FBTX/WSMR

- Tech Trail Boss Role
- CTSF provides expertise for tactical edge integration of C4ISR systems onto platforms and ensures fully operational network
- Requires resources to execute

CTSF (Ft Hood)

- SoS Integration Support to ASA(ALT)
- Army Interoperability Certification (AIC)
- Configuration Management of multiple (Future, Fielding, Fielded) LandWarNet
- Software Baseline

C4ISR CoE (APG)

- CTSF provides interoperability metrics and test tools for early evaluation of technology solutions as part of the Agile process

CTSF Must Move if it’s to Remain Relevant
Challenges

• **Budget reductions**
  - Loss of Supplemental (OCO) funding
  - Task Force DFR
  - $400B Defense Budget Cut
  - Super Committee Sequestration

• **Manpower reductions**

• **Training / shaping the workforce**

• **Supporting OSC-I and State Dept in Iraq**

• **Executing CPFF / FFP contracting**

• **Rapid retrograde of C4ISR equipment from theater**

• **Meeting small business goals**

*Opportunities to excel*
Good News

“The Network is essential to a 21st Century expeditionary Army… The Network is … essential for planning and operating with joint, coalition and interagency partners.

(2011 Army Posture Statement and 2011 Army Strategic Planning Guidance)
